Mission

Swissphotonics is the Swiss National Thematic Network (NTN) for photonics.

It is the declared goal of Swissphotonics to improve the competitiveness of the innovation forces, by

- Organizing **Events**: Workshops to foster the innovation forces, opportunities for communicating leading research results, roundtables to address challenges and we support conferences to provide
- Supporting eight **Labs** which are acting as a point of contact service and support to SMEs.
- Informing about Swiss research platforms and initiatives.
- Providing information and support to access them.

Swissphotonics is part of the Swiss National Thematic Network (NTN) initiative. The activities of Swissphotonics are supported by the Swiss

News

- Website update** 19.10.2016: Adding Link to SSSL labor
- Int. Year of the Light 2015** Final report now available
- Day of Photonics (managed by EPIC)** 21st October: HTW Chur Workshop; NTB Buchs Infostand

- Friday, 28.11.2016 **GA 2016, FHNW Olten**
- Monday, 28.11.2016 **Workshop: Funding , FHNW Olten**
- Tuesday, 29.11.2016 **Photonik Kolloquium: Dr. Reinhard Völkel, Buchs**
- Monday, 12.12.2016 **SSSL Workshop , Pantheon, Muttens BL**

- To serve companies, research organisations and universities in the field of photonics

Workshops and conferences

- **> 20 workshops and conferences**
 - Workshops for Innosuisse project partner matching
 - talks by industry on challenges and research organisations on solutions
 - gap closure through partner matching for submission of Innosuisse projects
 - Round tables between research organisations and industry
 - 8600 active e-mail addresses

Project submission support

- **29 new projects**
 - Submission support:
 - Market research reports
 - Technical review
 - Content review
- **Seed money checks, innovation checks and project coaching**
 - 1 Seed Money Checks granted
 - 6 Innosuisse Innovation checks granted

Support of Swissphotonics

Project confirmation to the NTN management¹ – 2019 version

We hereby confirm that we have received support from the NTN **Swissphotonics** for the application submitted for this innovation project.

Project title:		
Project number:	Primary funding source*:	Authorised on:
Abstract: <i>(to be filled in for non-Innosuisse projects only)</i>		

Main implementation partner	
Company name and address (postcode/town):	
Person in charge:	
Member of the NTN:	Yes <input type="checkbox"/> No <input type="checkbox"/>
Main research partner	
University:	
Institute:	
Person in charge:	
Member of the NTN:	Yes <input type="checkbox"/> No <input type="checkbox"/>

The NTN has:

- drawn up the initial content
- made access to infrastructure or services available
- supported the project's establishment
- introduced partners (helped with making contacts)
- provided opportunities for making contacts at a workshop or event organised by the NTN
