Innosuisse – Swiss Innovation Agency

GO GLOBAL

Innosuisse helps companies work together **across national borders.**

INTERNATIONAL COLLABORATIONS

Innosuisse

Global bilateral innovation

→ cooperation with partner agencies for innovation allowing SMEs to cooperate in global value-chains

Inter-governmental

Cross-border innovation

→ Intergovernmental organisation promoting collaborative and industry-led cross-border research and development

Support for R&D performing SMEs

→ R&D performing SMEs develop their products or services together with industry or research at an international level, co-financed by the EU

Switzerland – EU partnerships

A better quality for seniors

→ innovative marketable solutions to enable the elderly to maintain their standard of living, co-financed by the EU

Public-private cooperation in microelectronics

→ Market-oriented collaborative research and development co-financed the EU

Thematic innovation

→ Access to thematic research networks and calls in Europe and beyond

The Eurostars-2 USP

- Projects with two partners are eligible
- The objectives of the projects are set by the project partners (bottom-up)
- Project administration is low
- Central application, evaluation and monitoring

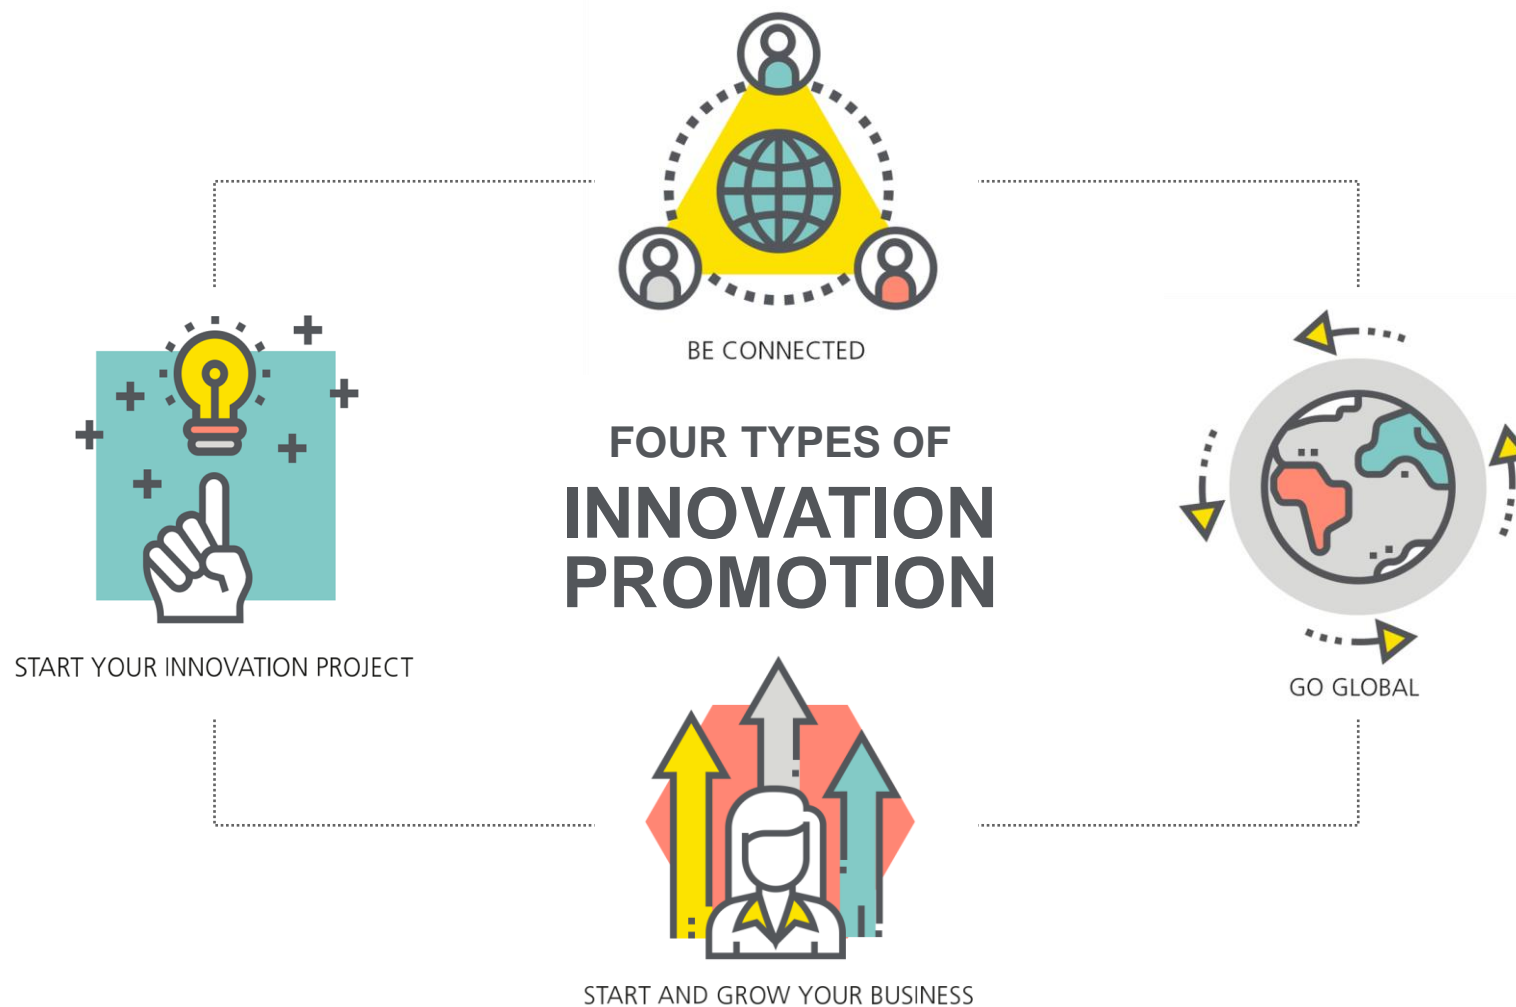

Next Cut-off dates:

February 13, 2020

September 03, 2020

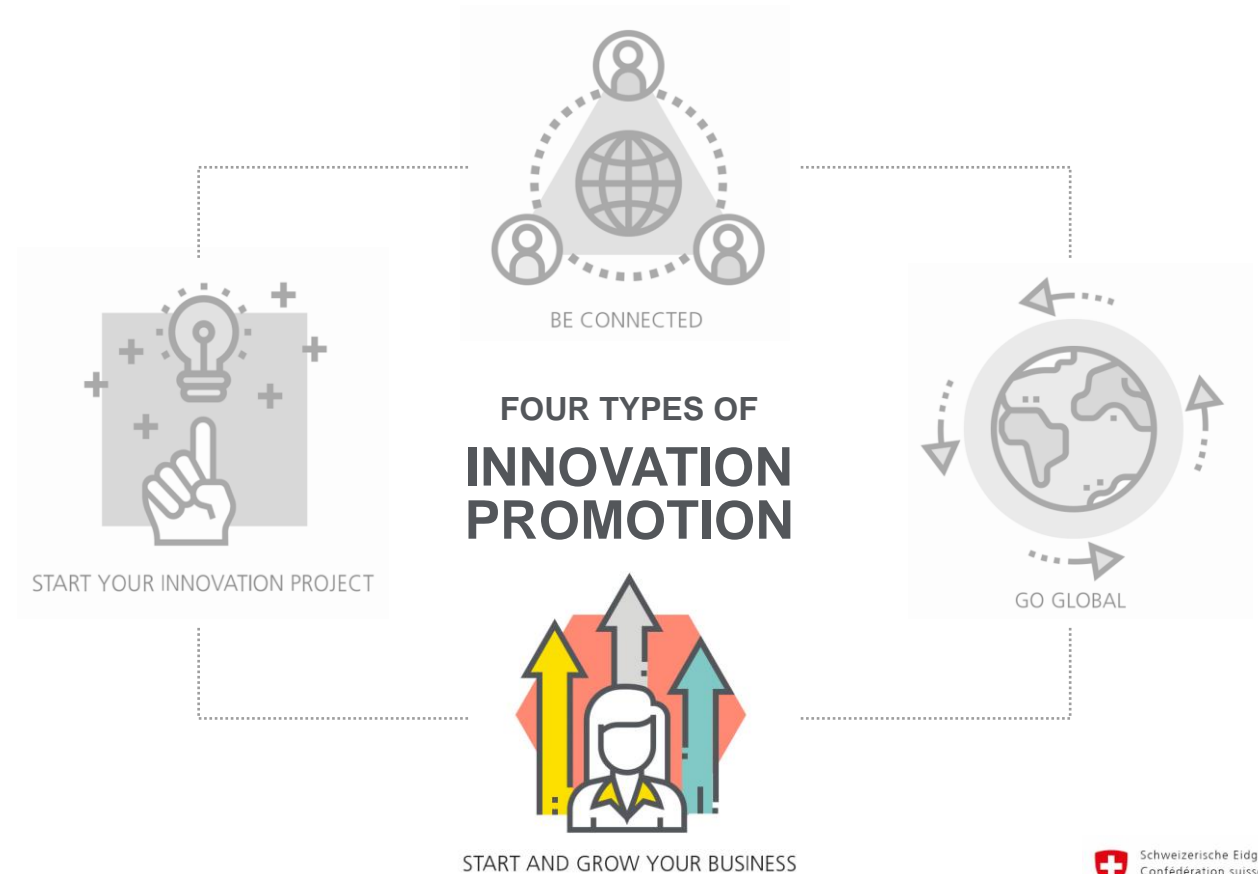

Funding conditions in Switzerland

- 50% of eligible costs for SME, universities and R&D institutions
- 25% of eligible costs for large companies
- Maximum funding per project with a Swiss SME is 500'000 €
- Maximum funding per project without a Swiss SME is 250'000 €
- Success rate 30%
