

IEEE-CPMT Switzerland Chapter & Swiss Photonics and Laser Network (SLN)

Seminar on Optical Packaging

16. May 2012

Call for Contributions

Dear CPMT and SLN Members,

This year, the CPMT Switzerland Chapter in cooperation with the Swiss Photonics and Laser Network, would like to organize a half-day seminar covering various topics in the field of optical packaging. The goal of this seminar is to provide a platform where people can exchange their activities, interests and solutions. For that reason we are calling for contributions from our chapter members and associates in Switzerland. Based on the received feedback, we will compile a seminar agenda by selecting four to five presentations from different fields. The seminar will be hosted by CSEM SA in Alpnach, Switzerland.

Topics:

- 3D integration
- Nanophotonic integration
- Active alignment methods
- Materials and bonding methods
- Heat and power management
- Reliability

Submission information:

- One page abstract (PDF, Word, PPT)
- Seminar handouts will be PDF files of the presentations (no full papers or manuscripts required)
- Submission deadline: 6. April 2012
- Notification: 20. April 2012

Location: CSEM SA, 6055 Alpnach Dorf, Switzerland
Date: 16. May 2012
Time: 15:00 – 19:00 (incl. CSEM lab visit)
Contact: Rony Jose James (rony.iosejames@csem.ch, +41 41 672 7549)
Web: www.ieee.ch/chapters/cpmt/
www.swissphotonics.net/

We are looking forward, receiving many contributions such as to provide a seminar with a technical presentation at highest level. Thanks in advance!

Kind regards

Hamit Duran
(Chapter Chair)
