Value Proposition for Participation in Funded Research Program

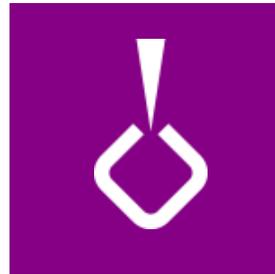

Dr. Eckard Deichsel, Bystronic Group

Laser

Bending

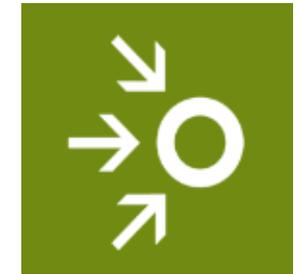

Tube

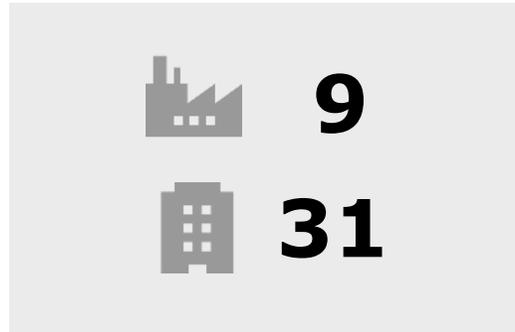

Automation

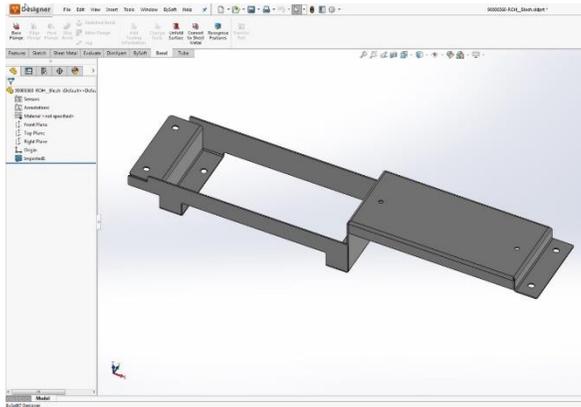

Software

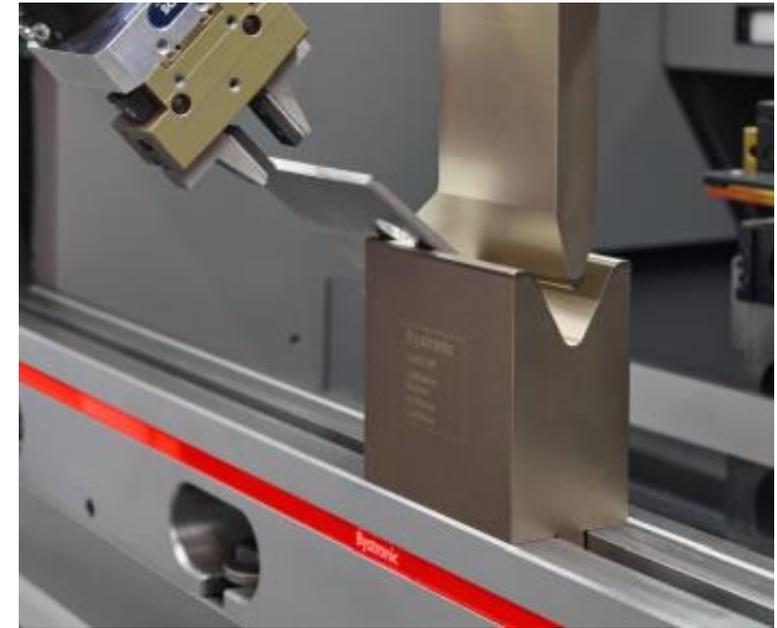

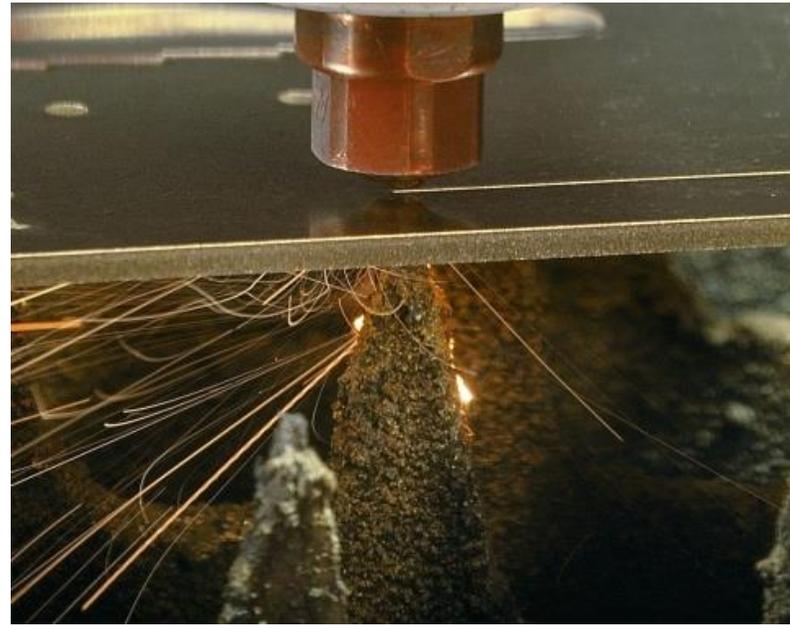

Services

- digital process
- fast, efficient, cheap
- wearless

Pros

- good examples of very successful funding projects
- interesting approach to collaborate with partners
- funding has advantages on commercial side
- good networking

Cons

- efforts for project application
- administration during project
- in some cases different focus on academic and industrial side

Bystronic **Best choice.**
