# CSEM at a glance

- Our mission

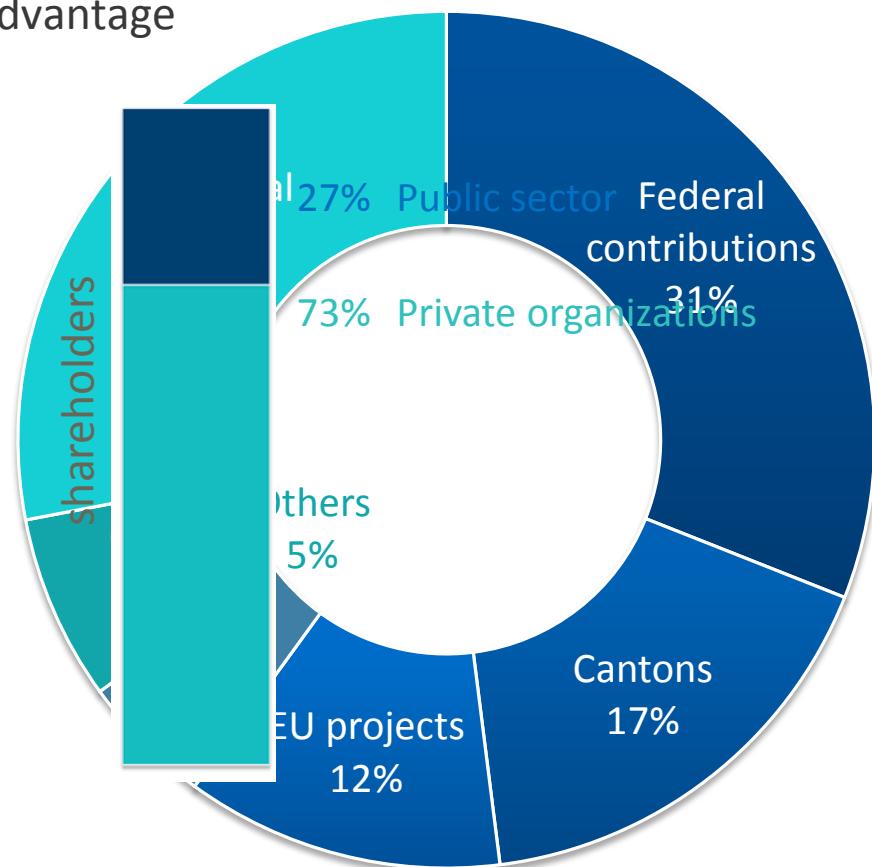

Development and transfer of microtechnologies to the industrial sector  
in order to reinforce its competitive advantage

- A public-private partnership

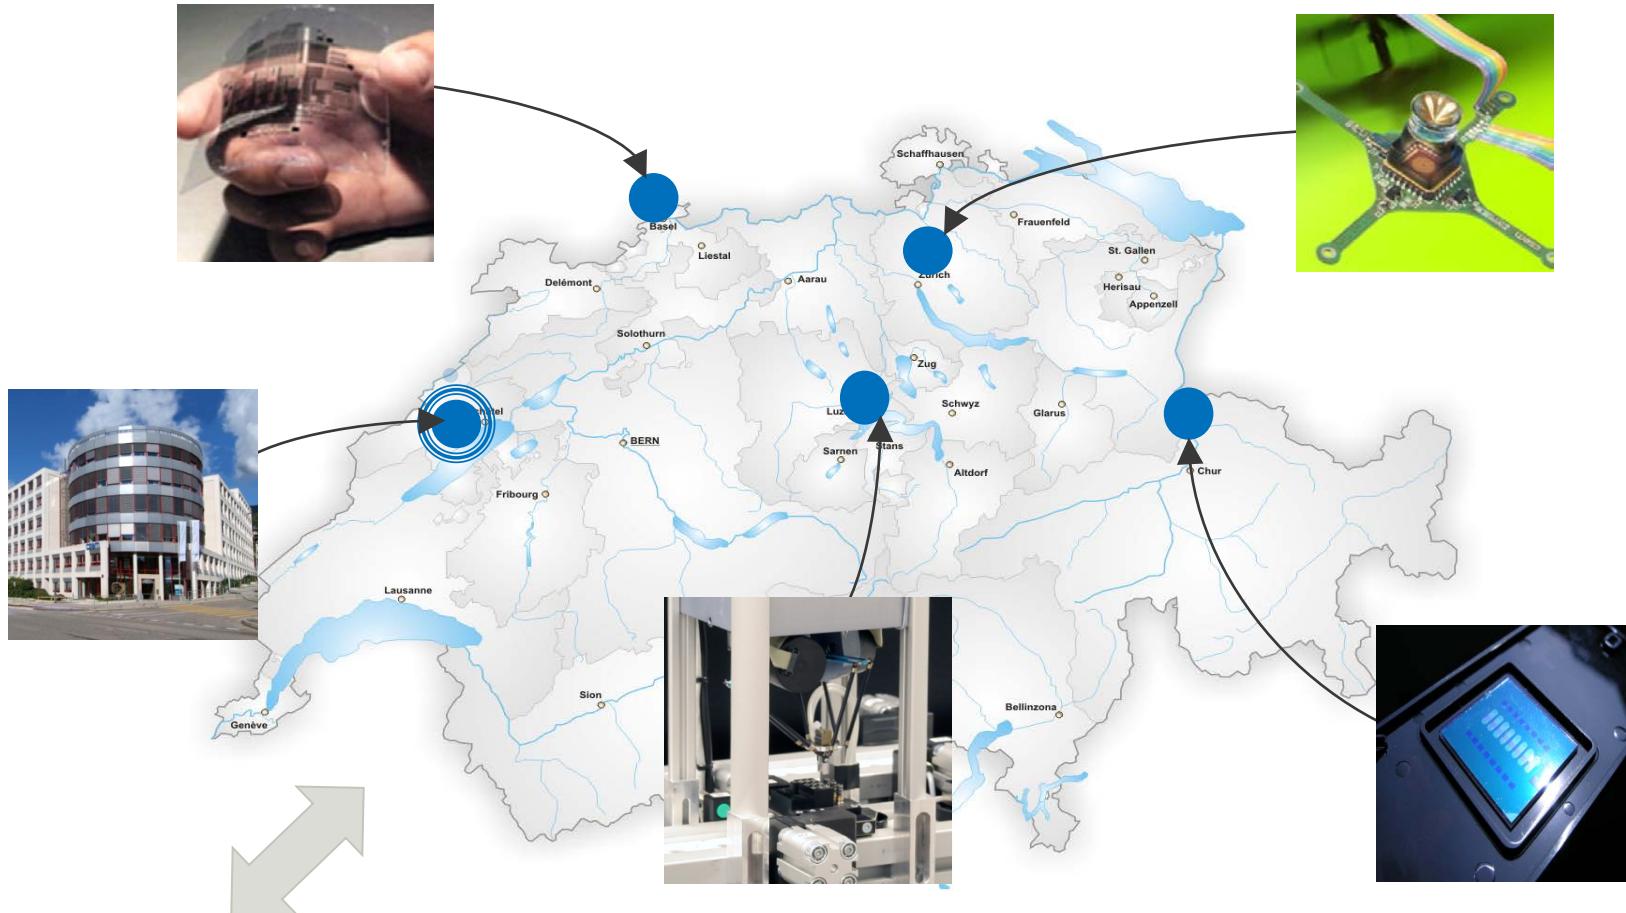

- 27 % public
- 73 % private

- Key figures (2014)

- Revenues ~ CHF 83 mio
- Employees ~ 450

## A history of “firsts”

1967 – The first electronic watch in the world: Beta 1

1991 – The first commercial standalone AFM in Europe

1992 – The first optical trackball in the world

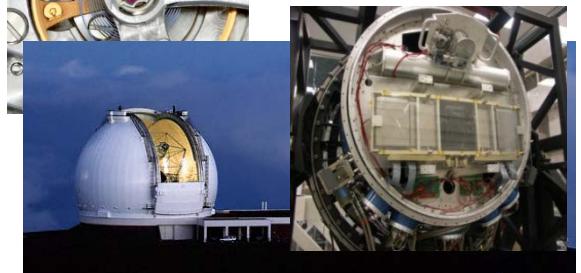

1997 – The first UMTS (3G) demonstrator in the world

2003 – The first commercial 3D TOF camera

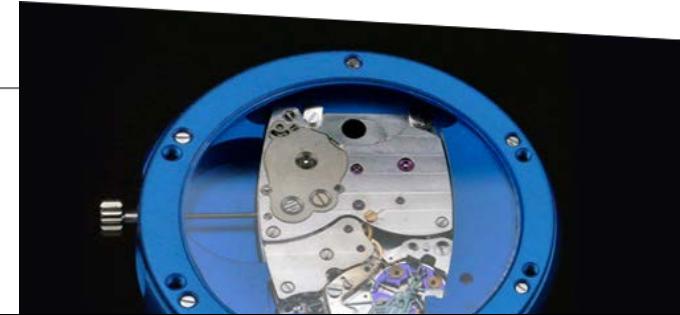

2007 – The first stable Si hairspring in the world

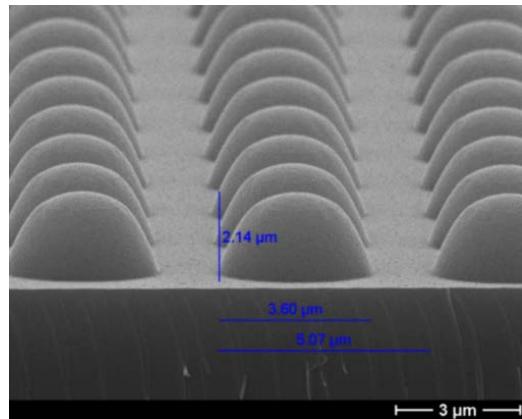

2011 – The first cryogenic reconfigurable Mask  
for the observation of old galaxies

## And recently ?

- A revolution in the mechanical watch industry, a completely new movement principle
- Landing of Philiae on P67: the eyes of the scientists
- First world wide white Photovoltaics
